Protect your pet and protect others by following local rules for keeping pets under control and on leashes. Keeping your dog on a leash can prevent your pet from being injured by cars and other animals. It can also prevent dogs from biting and hurting someone nearby. Bites from pets can become infected or spread diseases. Follow your local rules for using leashes to keep pets and others safe.

Read more about Anchorage leash rules on the Anchorage Health Department website - https://www.muni.org/.../animal_control/pages/leash.aspx.
