If you have never been down the Upper Kenai River, It is an awesome experience

Sit back and relax as you meander through the glaciated valley of the Kenai River headwaters. We start this voyage at Drifters Lodge, just after the massive Kenai Lake empties into this historic icy blue river. From the start, it is sensory overload, as Cecil Rhodes Mountain and Slaughter Ridge tower above you, Bald Eagles screech and the serene glacial water gains speed.

Hey this sounds amazing,

It really is,

So don't miss out

There is Always something interesting.

Salmon in the river

Baby Eagles are in the some of the Nests

Bears are seen every some trips
